Returns of Agricultural statistics of the Mysore State.

Indexed

MKhan

Memo.

As the Government of India have not called for an explanation of the variations & discrepancies noticed in their Memorandum of observations, no draft reply is submitted. The following, however, is an explanation of the differences noticed in the said Memorandum:-

I The increase in total area viz 157.019 acres is mainly due to the correct measurement by the Survey of the Nagamangala & Mandya Taluks in the Mysore District. Similar variations will continue to occur till the Province is completely measured by the Survey Department. This fact has already been intimated to the Govt of India thro' the Resident. Vide this Office letter (camp) No 169 dt 13/4/88.

II The increase in area under "Forests" is also due to correct measurement of State Forests & plantations & is based on the particulars furnished by the Inspector Gl of Forests.

III The falling off in the cultivable

... tobacco is chiefly in the Mysore District & is probably due to a comparatively small area of land cultivated in 1888-89. The Deputy Comrs explanation is called for in the draft circular herewith submitted for approval.

V As regards the points noticed in paras 4, 5 & 6 of the Memorandum, the Dy. Comrs concerned have also been requested to submit reports. Please see the draft herewith submitted.

C The cause of increase in the No of Colors or shareholders (Vide para 7 of the Memorandum) is due to the entry of correct figures in the District returns for 1888-89. This information was not complete in the returns of the year 1887-88.

VI The reduction in the average assessment pointed out in para 8 of the Memorandum is due to the fact that in the return of Varieties of Tenure for 1888-89 (a modified form adopted for the first time) the particulars of Inam villages, while in the return for 1887-88 the particulars relating to Inam Inams only had been separately entered

From

Major E. A. FRASER,

Assistant to the Resident in Mysore.

Refer
17-6-86
PM

To The Dewan
of Mysore.

Dated, Bangalore, 15th June 1886.

Sir,

I am directed to convey the thanks of the Government of India to the Durbar for the Returns of Agricultural Statistics submitted by Mr. M.c Hutchin with his letter No. 536/648 dated the 19th April 1886, to the address of the Secretary to the Government of India in the Revenue and Agricultural Department.

Officer in charge, Mysore London Exhibition-86.

2. I am at the same time to state that the Returns have been criticised by the Government of India, as they would have been had they been received from a British Province, and that the Government of India hopes that the criticisms recorded in the accompanying copy of Memo will be of use to the Durbar if it intends to continue to

tabulate

tabulate statistics for the Government of India or for its own use. The Government of India further adds that if accurately prepared statements are annually furnished by the Bureau in time, they will be published as an appendix to the Annual Return of Agricultural Statistics to be submitted to the Secretary of State for India in the month of May of each year.

3. I am to ask for an expression of the Bureau's views on this subject.

I have the honour to be,

Sir,

Your most obedient servant

Secretary to the President.

WPL

Memorandum of errors and discrepancies in the returns of Agricultural Statistics of the Mysore State.

— Form A —

Mysore — With reference to the corrections suggested further on in Column 19 of Form B for this district, this column as now corrected should tally with column 7 of Form A. For this purpose the 23 acres may perhaps be deducted from columns 4 and 5 of Form A and added to columns 6, 7 and 9 of that form.

Tumkur — The total of columns 9, 12 + 13 does not tally with the figures given in column 6, "Forests" being apparently excluded from the latter. The 66,560 acres shown under "Forests" should perhaps be deducted from columns 4 and 5 and added to column 6.

Kolar — The total of columns 9, 12 + 13 does not tally with the figures given in column 6. The difference to be reconciled is 24,541 acres. Again the total of columns 10 and 11 should according to the present details be 580,738 instead of 680,738.

~~124541~~

Shemoga — There is a difference of 62,939 acres 24 Guntas between the aggregate of columns 9, 12 and 13 and the figures given in column 6. Again the figures entered in column 12 should be 20,26,907 acres 8 Guntas instead of 20 acres 26 906 — 48 Gs. —

Form.

— Form B. —

The figures in columns 17 and 19 should be 087,050-28 in each instead of 108,036-28, the 23 acres under cultivation Col: 14 having apparently been inadvertently omitted. Mysore

Column 19 does not tally with column 7 of Form A. the difference is 232.165 acres. The figure in Columns 17 and 19 should according to the details given be 684,019 instead of 680,010. Bangalore.

— Form C —

The figures in column 2 should be those of Column 2 of Form A minus Column 3 of that one but in the statement submitted the figures of Col: 7 of Form A have been shown. The entry does not appear to be correct. Again the land revenue for each population calculating on the figures given should be Rs. 1-4-3 instead of 1-5-0 the incidence of land revenue per acre, Col: 9 that not only the total land revenue assessed on fully assessed area has been shown in this column a similar course has been adopted in filling up Column 10. Column 13 is intended to give not only the number of towns over 10,000 population but also the total population of such towns. Mysore

The figures in Column 7 against 'Raitwari' should be 1.90 instead of 1.95 and those in column 4 against Tumkur

against "Zemindari" should be 74707 instead of 74717-

Kolar — The land revenue per head of population should be 2-5-11 instead of 1-13-11 and the incidence of land revenue (Col: 9) should be 2-9-1 instead of 0-11-2. The population of the Kolar town is not given (Col: 13)-

Bangalore — The figures given in Columns 2, 4 and 9 should be 10,38,825, 709,354 and 1-3-2 respectively instead of 1039425, 709954 and 0-13-2. The number of towns over 10000 population should also be given-

Shemoga — The population of Shemoga town (col: 13) should be given-

Kadur — The figures given in column 9 should be 2,4,10 instead of 2,4,1-

Irrigation Statement, Mysore. The total area of crops irrigated and unirrigated should be 1087059-28 instead of 1087036-28 and the same correction should be made throughout the statement. From the statement it appears that there is not an acre of cultivated land in Mysore district which is not irrigated-

Kolar — Columns 9 to 12 should show only the details of crops irrigated but they shew the details of the total area of crops both irrigated and unirrigated-

Bangalore — The figures given in column 2 should be 684019 instead of 680,019-

Shemoga — The total area of crops irrigated should be 246322 acres instead of 246321 — 40 Guntas.

Prices.

Prices of Produce.

It is not stated whether price of rice given Shimoga
is that for husked or unhusked.

Varieties of tenure

The totals of columns 6 and 7 should have Mysore
been given. The latter information is also wanting
for the Kolar district. Kolar

The figures in column 6 against the heading Bangalore.
Tolls of revenue free tenure should be 3-35 instead
of 3-28.

The total of column 4 should be 815982-14 Kadur
instead of 815982-4

Register of transfer

The nature of tenure transferred has not
been given for the following districts -

Mysore,
Kolar,
Bangalore,
Shimoga.

Yours,

[illegible]
Secretary

[illegible]

Nos 732 & 911 dt 14th Oct: 85 & 15th Dec: 85
respectively from Dy: C, Bangalore Dtt

Read

Nos 663/347 & 1288/449 dt 18/11/85 & 25/1/86 respectively
from the Dy: Commr, Kolar Dtt.

Nos 498 & 749 dt 25/9/85 & 6/1/86 respectively
from Dy: Commr, Tumkur Dtt.

Nos 543 & 902 dt 24/10/85 & 16/1/86 respectively
from the Dy: Commr, Mysore Dtt.

Nos 462/560 & 1120/892 dt 2/10/85 & 11/3/86 respectively
from the Dy: Commr, Shimoga Dtt.

Nos 391 & 461 dt 9/10/85 & 24/11/85 respectively
from the Dy: Commr, Kadur Dtt.

The marginally noted dockets from the Dy: Commrs of Dtts, enclosing Returns of Agricultural statistics for the year 1884/85.

Read also letter no 7210/15-6-188 dt 14th Dec: 85 from the Director of Land Records & Agriculture, forwarding the Returns for the above Dtts, and

Order thereon

The following errors & discrepancies are observed in the Returns received from the Dtts:-

Form A.

2. The totals of Cols: 9, 12 & 13 of the statements of the Kolar, Tumkur & Shimoga Dtts do not tally with the figures in Col: 6 "Forest". The difference to be reconciled are in 24,541; 66,560 & 62,939-24 respectively.

3. The total of Cols 10 & 11 for the Kolar Dtt should, according to the details given, be 580,738 instead of 680,738; while the figures entered for the Shimoga Dtt in Col: 12 should be 2,026,907-8 and not 2,026,906-48.

4. Col: 19 of Form B of the Bangalore Dtt does not tally with Col: 7 of Form A, the difference being 232,165. The area shown in Cols 17 & 19 should as per particulars given, be 684,019 instead of 680,019.

Form C.

5. The entries for the Bangalore Dtt in Cols 2, 4 & 9 should be 10,38,825; 1,09,354 & 1-3-2 respectively instead

No 2735-40/109 & 6 Encls &

the ac 3.75 instead of ac 3.28, and the
total of Col. 4 for the Kolar Dt
should be ac 8,15,982.14 and not
ac 8,15,982. G 4. The averages of
the totals of Cols 6 & 7 are wanting
for the Kolar & Mysore Dts.

12. As regards the Register of
transfer, the nature of tenure
transferred has not been
given for the Bangalore, Kolar,
Mysore, & Shimoga Dts.

To

The Dewan of Mysore.

Dated, Bangalore, 27th August 1886.

Sir,

As the period of the agricultural year varies in different parts of India, I am to ask, with reference to your letter No. 4017/248 dated 12th August 1886, that if there is any variance from our Calendar, you will state the period, corresponding with that of the British year, to which the Durbar Statistics will refer, and also the date after expiry of the agricultural year at which it will be convenient possible to furnish them.

The Durbar Statistics are for periods from 1st April to 31st March. They can be furnished before the end of September

2. I am to add that similar returns for British districts have to be submitted to the Government of India in November of each year, and refer to the year ending on the 31st March previous.

No. 1487 / 1085 Enc

From

Major D. ROBERTSON,

Assistant to the Resident in Mysore.

To

The Dewan of Mysore

Dated Bangalore, 6 May 1887.

Sir,

I am directed to forward a copy of the statement (pages 62 and 63) published in the eleventh issue of the Volume of Statistical Tables for British India, illustrative of the state of Coffee Cultivation during the year 1885, and to request that the figures for the State of Mysore for the year 1886 may be carefully entered in the statement

Statement, which should be returned to this Office as early as possible for transmission to the Government of India.

I have the honour to be

Sir -

Your most Obedient Servant.

No. 1

Section
File No 9
Serial No

With reference to Docket No. 807 dated the 18th Instant, has the honor to state that the increase in the number of Native Coffee plantations is on account of the Re Survey Settlement which took place in 1886. Coffee land which formerly formed one holding or Survey number, has now been sub divided into two or more holdings according to the number of Co-sharers. This is especially the case with the holdings of Holeyars. As an instance, in the village of Birvalli

there has been an increase of [redacted]7
numbers in consequence of each
holding being separately measured
and formed into a different numb

The increase in the area under
cultivation being slight is accounted
for by the uncultivable portion
having been also formed into separ
numbers and their area deducted
as "Kharab".

The Amildar's report is en-
closed for information.

I have &c.

Asstt. Collr.
Offg: Py: Commissioner,
Kadir District.

To

The Asst to the Resdt in Mysore

No 1187 2/6/87
111

Sir,

I am directed to return the statistical statt illustrative of Coffee cultivation during 1885, received with your letter No. 1481/1885 of 6th ult, and to state that the figures for the Mysore State have been duly entered therein. for the year 1886. It will be observed that there has been an increase of 3822 plantations during the past year; but this increase is only nominal, as, during the re-survey, many large blocks of coffee lands have been sub-divided into smaller holdings according to the number of co-sharers.

The decrease of 6029 acres in the area under cultivation is mainly due to the resumption of the uncultivable portions of Coffee lands during the re-survey.

I have &c

Sir,

Adverting to para 2 of your letter No 1864/5166 of 16th ultimo, I have the honor, by direction of the Dewan, to append on the margin the particulars of area shewn under col 2 of Form C., forwarded with my letter No 2141 of 23d March last.

2 With reference to the observations made in the said para, I beg to state that col 9 of Form A represents the cultivated area (including current fallows) of the fully assessed land & does not include lands assessed at privilege rates, inasmuch as correct information for these lands is not available. Hence, the incidence given in col 10

of Form C. is correct.

3 As the words "Land Rev. assessed" in the heading of col 8 of Form C. were understood to mean the assessment imposed on lands, both cultivated & waste, the total assessment thus imposed on all Govt lands (which are subjected to full assessment) was shewn under the said col., while the total actual revenue derived from land & other items of Land Rev. was exhibited under col 5. For this reason, the amounts entered in the former col. were higher than those shown in the latter. But, as full particulars for the Bangalore & Mysore Districts for the years 1870-71 to 1874-75 were not then available in time for the Statement, and as approximate figures were used, as the information at that time was available, shewn in col 8 against the said 2 Districts.

4 As requested in para 3 of your letter, average prices, instead of maximum & minimum prices, will be hereafter given for plough bullocks, sheep & fish.

5 With regard to your remarks about the price given for uncleaned cotton is rather high & apparently relates to cleaned cotton, I beg to inform that the prices of cleaned & uncleaned 2 sorts of cotton do not generally

Enclosures No.

General No. 2915
No. 37

Agricultural Statistical returns for the year 1886-87, received with Rc. 105/99 9/10/7/87.

With reference to the statement of Irrigation, observes that the extent shewn under the head "Other cereals & pulses" is less than the area exhibited under col. "Rice" in Form B. It is presumed that the excess area in the latter statement is due to inclusion of the extent cropped more than once. If the discrepancy be attributable to any other cause, it should be reported. The extent of Sugarcane cultivation (col 6 of Form B. should have been included in col "Food crops" of the statement of Irrigation as already pointed out

in this Office Cir order No 64-71 dated 5th April last. The total extent of garden lands as per Nagadigal return is 27,463 acres while the area shewn under cols "Food & Non food crops" is 6158 acres only. As vegetables, chillies & other kindred crops are grown more than once in the same year, the extent cropped more than once should have been included under Col "Food crops" in statement B, but the figures entered under the said col in the statement of Irrigation & Form B. tally with each other. These discrepancies should be explained.

2 The extent of Wheat cultivated as shewn in Form B. is 12846 acres while that exhibited in the statement received with his No 462 dated 30th January last, was 4360 acres only. Altho' the former statement is for the Offl year 1886-87 & the latter for the calendar year 1886, yet such a large difference is improbable & requires explanation. A very early reply is awaited.

I am directed upon the subject of the Devaru, to forward herewith for submission to the Govt of India the 8 Agricultural & Fiscal returns for the past official year 1886-87, as noted on the margin.

2 As some doubts are entertained with regard to the entry to be made in the statement of Irrigation, I beg you will be so good as to ascertain and intimate the views of the Govt of India as to which of the courses indicated on the margin, has to be followed in future in filling up cols 3 to 8 of the said statement.

I have &c

Under Secretary

1 Whether the area of purely wet-lands & garden alone have to be included or whether the dry lands on which wet & garden crops are sometimes raised by means of irrigation from private wells &c should also be taken into account?

2 Whether the total extent of the occupied irrigable lands should be entered, or whether only such portion thereof as is actually brought under cultivation should be shewn?

3 Whether the area of garden lands which once required irrigation but which do not now require irrigation owing to the mature state of crops thereon (such as Cocoa, areca & other fruit-gardens) may be included?

4 Whether the area cropped more than once should also be taken into account in giving the extent as in the case of statement, Form B.

FROM

THE ASSISTANT TO THE RESIDENT IN MYSORE.

To

The Dewan of Mysore.

With remarks within. Rk. 29/3

Dated, Bangalore, 26th March 1888.

SIR,

With reference to your office letter No. 5865-457 dated the 7th January 1888, forwarding the returns of Agricultural Statistics of the Mysore State for the year 1886-87, I am directed by the Officiating Resident to convey the thanks of the Government of India

The incidence of land revenue per acre for cultivated area shown in Col: 10 of Form C has been calculated on the figures exhibited in Col: 9 of Form A, and having regard to the explanation offered in para 2 of letter No. 2204-187 dated the 19th July 1887 from your office in connection with these returns for 1885-86, it appears that only the cultivated area fully assessed has been entered in Columns 7, 8 & 9 of Form A. These Columns, I am to explain, should

with these returned for other districts.

Form I.E. (3). In this Statement, against the heading "Name of Village" the Number of Villages has been omitted. This information, if possible, should be supplied.

3. I am to request that you will forward the enclosed Return with a reply at your early convenience.

I have the honour to be,
Sir,
Your Most Obed.t Servt.

[signature]

The Joint Secretary to the Revenue

Minor Enams are detached pieces of ryotwar land in the village which contain several such Enams. Ask if under this head the villages will be returned.

Early

F. 75-

4 With reference to your observation that the No of villages has been omitted to be shewn against — Inam Inams in Form I. E. III, I am to remark that Inam Inams are detached pieces & not one village and that almost all villages in the province contain several such Inams. Hence the No of villages was not inserted in the return.

I have &c

Chief Secretary.

~~General No.~~

Camp No. 169

Sir,

Adverting to para 2 of your letter No 1077/926 of the 10th ultimo, I have the honor by direction of the Dewan, to explain that the decrease of 99,063 acres, therein alluded to, is due to correct survey measurement in certain Talukes. There being a few Talukes to be still surveyed, fluctuations in the decreases extent of the province consequent to the survey figures will vary, the survey figures are approximate pending the more reliable transmission of the area of the remaining Talukes till the completion of survey operations in the Province. The entire omission of the area of the yet-surveyed Talukes would render the

returns ~~prescribed by the Govt of India~~ incomplete, the actual extent of the surveyed portion plus the old recorded area of the unsurveyed portion is being therefore shown in the returns ~~already submitted~~.

2 As regards the incidence of land revenue to be shewn in col 10 of Form C, I am to state that as the marginally noted particulars cannot be accurately ascertained for the Inam, Kaycangatta & gori villages as well as minor Inams, the area of such privileged estates was deducted in col 4 of Form A from the extent shewn under col 2 thereof, and the necessary details given in the other cols for the remaining area of the Province. The statement Form C, being based on the returns Form A, the incidence given in col 10 of the former has been calculated on the ~~accurately~~ ascertained and fully assessed.

Area actually cropped —
Current-fallows —
Extent available for cultivation
do — not available for cultivation
Forests —
Sources of Irrigation
Details of crops
yes yes

3 The price of uncleaned Cotton shewn against the Bangalore and Hassan districts, is reported to be correct according to the rates ruling on the last day of the year

To The Dewan of Mysore.

Dated, Bangalore, 12th June 1888.

SIR,

I am directed to acknowledge the receipt of your Office letter Camp No. 169 dated the 13th April 1888, furnishing explanation on certain points connected with the returns of Agricultural Statistics of the Mysore State for 1886-87.

2. With reference to paragraph 4 of your Office letter stating the reason why the number of villages against

against the heading "Minor Inams" cannot be given in column 2 of the return of Varieties of tenures (Form I.E.3) for 1886-87, the Government of India suggest a modified form (copy enclosed) which would, it is believed, present a clearer idea of the varieties of tenures in Mysore, and I am to enquire whether this form can be adopted by the Durbar in future.

3. I am also to ask whether the Durbar have any objection to showing a provincial total in column 2 (Number of Villages) of Form I E.3 for 1886-87.

I have the honour to be,
Sir,
Your most obedient servant.

Requesting that the system of preparation of the return of area under ~~wheat~~ cultivation may be better Explained

No. 2981/2888

From The Assistant to the Resident in Mysore.

To The Dewan of Mysore.

Dated, Bangalore, 30th September 1888

Sir,

With reference to your office letter No. 2420/175 dated 11th July 1888, indicating the system on which statistics of area under Coffee and Chinchona cultivation in Mysore are compiled, I am directed to state that, according to the explanation given in paragraph 2 of the letter cited above, the areas entered in Form B for Coffee should be

be less than those shown in the Statistical Tables, but the following figures show that this is not always the case:—

	Coffee		Cinchona	
	mature & immature plants			
	1885-86 Acres	1886-87 Acres	1885-86 Acres	1886-87 Acres
As per Form B.	137.657	102.606	99	391
As per Statistical Tables.	105.021	102.688	326	291

Again, the distinction made in that paragraph between "total area" and "cultivated area" as applied to crops is not understood.

2. I am therefore to request that further explanation may be kindly furnished on these points for communication to the Government of India.

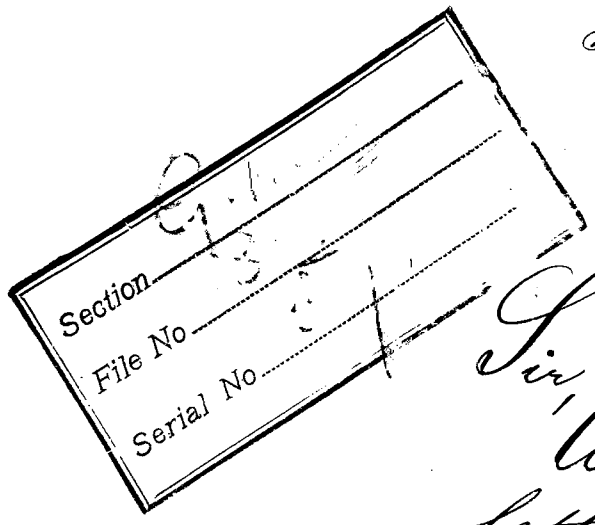
121

To

The Asst to the Resident
in Mysore



Sir,

With reference to your letter N 2981/2888 of the 3rd Inst calling for further explanations in connection with the statistics of Area under Coffee & Chinchona cultivation in Mysore I am directed to state that the distinction between "total area" and "cultivated area" is that the figure under the former head represents the whole area under occupation viz the area planted with mature & immature plants plus the area not brought under cultivation, while the "cultivated area" only exhibits the extent under actual cultivation.

2. As regards the discrepancy between the areas for Coffee there-

shewn in form B of the
Agricultural Statistical
Returns for 1885-86 and
the Statistical Tables I
have to inform you that in the
former the total area and
not
the Cultivated area was
inadvertently entered
that this Area was moreover
approximate as intimated
in this office letter No 2441
of 23rd March 87. With
reference to the discrepancy
for 1886-87 I have to state that
the entries in Form B &
the Statistical Tables will
always slightly vary,
as the figures in the former
are for the official year
and those in the latter
for the Calendar year.
3. The figure shewn in
Form B for 1885-86 under
"Chunchunu" represents
the extent exclusively
cultivated with the plant
while the Area entered
in the Statistical Tables
included the estimated
extent of plots of ground
here & there under Chunchunu
cultivation in the midst of

of Coffee. For the year
1886 the total area under
Chinchona was put down
as 391 ac in Form B and
as 271 ac only in the Statistical
Tables. The excess of 120 ac
is accounted for by the fact
that correct information
was not available
when the said Tables
were filled in & returned.

Agricultural & Fiscal returns for 1887-88.

Observes that the total extent shewn under col 2 of Form A. exhibits an ~~area~~ increase of 536.594 acres over the area entered in the return for 1886-87. This very large difference cannot be due to the conversion of old Bijvari of the unsurveyed Taluks into acres, inasmuch as the extent entered in the previous year's return evidently included the area (in acres) of the unsurveyed Taluks also, nor is it likely that the survey measurement of the Mulbagal & Chintamani Taluks (settled in 1887-88) would be the cause of the said large increase. This point should be clearly explained.

2 The No of estates shewn against 'Ryotwar' in the statement of Varieties of Tenure, is 182,182 as against 95,422 in the previous year. This unusual increase needs explanation.

3 The total No of Govt, godi &c villages (both populated & depopulated) as shewn in the Abawal returns, should be hereafter entered in the same returns referred to in the preceding para

4 As the statement of particulars of Local & Irrigation cesses for the last year, is urgently required for reference, requests that the same may be forwarded without the least delay.

5 An early reply is requested.

Dy Commissioner's Office.
Bangalore District.
Dated 2nd November 1888

D. No. 487

To

The Chief Secretary to the Dewan
of Mysore.

Sir,

With reference to your docket No. 4958/205 of the 26th Ultimo, I have the honor to state that the column "Horses and Ponies" in the statement of Agri-cultural Stock does not include the (Siledar) Cavalry Stationed in the Town of Bangalore. The same will be entered in future.

2. It is observed from the office copy of the "Register of Transfers" in this office that the number of Transfers against Inam villages was two with an extent of acres 334 Guntahs 9. If it has not been inserted in the fair copy requests that the same may now be done.

3. The number of estates in Column 2 of the Statement of "Varieties of Tenure" naturally exceeds that shewn in Column 3, since each "Vrithee" or Sub Division in Inam villages made among several share holders is recorded as a separate

Estate, as required in para 16 of Proceedings No. 6183-6190/228 of the 15th December 1886.

4. The discrepancy noticed in para 4 of the docket under reference about the number of villages will be explained in due course after obtaining required information from Sahibs.

5. As regards the area of Minor Inams it has to be stated that 94,649 acres shewn in the past years return must have been a mistake made when Commuting Kandies into acres, but the figure 81962-62 given in the return for 1887-88 is correct and agrees with that shewn in Inami account No. A.

I have the honor to be
Sir,
Your most Obedient Servant.

Enclosures No. 6

General No. 5375

No. 146

His No 497/470 of 10th Instant, submitting Agricultural & Fiscal returns for the year 1887-88.

Observes that as no area has been entered in col 8 (current Fallows) of Form A. it is apparently meant that all the lands in the occupied of Inam had been brought under cultivation during the year 1887-88. This figures is incorrect as the extent of fallows as per last year's return was more than a lack of acres. It is, therefore, requested that the correct figures which have to be entered in cols 7 & 8 may now be intimated.

2 The statement "Form B." has not been submitted in the prescribed form but it appears to be a copy of return

the head "Wheat". It is doubtful that only one acre of land was cultivated by means of irrigation while the total extent of wheat cultivation as per Form B. is 577 acres. The statement which is herewith returned should be rectified & resubmitted.

5 In the return of "Varieties of tenure" the average area, average assessment as also revenue rate per acre have not been entered, but "gross assessment" which is not required, has been given instead. Moreover, some of the other figures require correction as marked in pencil in this Office. This statement is also returned for correction & resubmission.

6 It is requested that the statement returned may be carefully rectified or revised so as to avoid further correspondence in the matter. An early reply is requested.

"By order"

under Secretary

No 60 (crops cultivated) rendered to the Office of the Director of Statistics. All the accounts under reference have been just received after a delay of 5 months, for which it is regretted, that some of them are not in the usual forms, thus necessitating their return & thereby causing further delay. The Form B. is therefore, herewith returned with a request that a revised statement may be submitted without further delay. The statement for the past year is also sent for reference. It should be noted that the figure in col 7 of Form A should tally with that in col 19 of Form B. With regard to the entry of figures in cols 15 & 16 in the latter return and also for other particulars, attention is invited to this Office Nos. Dos 6183-90/228 & 64-71/3 9/15/12/86 & 5/4/87 respectively.

3 The statement of prices of produce also is not in the usual form. The return for the past year is also sent for reference & retransmission. The maximum & minimum prices should not be given but only average prices.

4 The figure entered in col 1 of statement of "Irrigation" is wrong. Moreover, the details entered in cols 9 to 12 do not tally with the total shown under col 8. Only an extent of 1 acre & 1 gunta is entered under

In reply to docket No. 4947/126 dated 23d ultimo, has the honor to report as follows:—

The decrease by 970 acres in the area shown under column 4 of Form A, as observed in para 1 of the docket under reply, is due (1stly) to Inam lands, 97 Khandies or 200½ acres in extent, in the Mudgere Taluk

Taluk, having been converted into cash Inams during 1887/88, or in other words 200½ acres of Inam lands having been resumed by Government.

(2ndly) to the correct acreage of Inam lands of the Sankeri Taluk, ascertained and entered in the Accounts of that Taluk for the year 1887/88 as per Final Quit Rent Register received in that year, being less by 769½ acres, than the extent shown in the Return for 1886/87. This decrease is probably attributable to wrong calculation in converting the "Khandies into "acres" in the previous year.

2. The instructions contained in paras 2, 3 & 4 of the docket have been noted for future guidance.

3. The price given in Column 10 of the Trade Return, is for husked rice.

General No. 1847
No. 540

Sir, With reference to your docket no: 4933/248 of the 23d ultimo, calling for certain explanation regarding the agricultural and fiscal returns for 1887-88, I have the honor to state that some of the Taluqs have yet to be brought under Survey Settlement, and until this is done, the correct area of the district cannot be given. A note to this effect had been entered in form A.—

2. The Survey Settlement

of the Chittamani and Mulbagal Taluqs during the year 1887-88 ——————— has resulted in a large increase of area over the old Bijavari

3. The area given in form A for 1887-88 tally with that shewn in the Ashtak Return for the same year. The figures entered in the latter return for previous years were partly in acres partly in Bijavari (Kandi, Kuduvu and Padi) and in converting the old measurement into acres for the purposes of form A, some errors seem to have crept in.

4. The figures given in form A for last year, may be taken as approximately correct.

5. The unusual increase shewn in the no: of Estates against Ryotwar in the Statement of variations of tenure was due to a clerical error, and a revised statement is herewith submitted

6. The instructions conveyed in para 3 of your docket under acknowledgment will be duly attended to.

7. The Statement of particulars of Local and Irrigation cesses for the past year has already been submitted on the 12th instant.

No. 595

From,

J. Ananda Rau Esquire B.A.
Deputy Commissioner

To,

The Chief Secretary to the Dewan of
Mysore.

Sir,

In reply to the remarks conveyed in your Docket no: 4951/231, dated 24th ultimo, on the Agricultural and Fiscal returns of this District, for the year 1887-88, I have the honor to reply as follows:—

To Para 1. The area of rice cultivation entered as 88,046 acres in Column 2, of this return, is the same as that shewn in the Statistical return of crops cultivated, forwarded to the Director, being the total of the areas returned by the Taluks. The same return of crops of the previous year shews only 89,474 acres, as the area under "Rice", while in Form B, of the same year, it is more, being 1,12,424 acres.

This

This evidently was the result of the area cropped more than once having been also included to the extent of 22,950 acres. But in the return of this year, only the net area under rice crop was shewn. and thus the decrease noticed which is nearly the same as the extent of second crop above indicated, is merely nominal.

2. Regarding the increase of 1 lakh of acres this year in the area cropped more than once, I beg to state, that it was not clear whether rice and other crops of the same kind as are capable of producing a second yield in a year, were alone to be taken into account. On the other hand, all lands both wet, and dry, which grow any two crops by rotation in one year, or a succession of two crops of the same kind, or otherwise were included, and the extent thus calculated was 1,27,931 acres, in accordance with the estimated areas of the several crops returned by Taluks.

3. The area of cotton cultivation shewn in Form B. as 2,120 acres, was entered from scrutinized 2o para 2

Requesting to submit at an early date, an amended Return shewing Varieties of Tenure (1E3)

No. 592/609 E. None.

FROM

THE ASSISTANT TO THE RESIDENT IN MYSORE.

To The Dewan of Mysore.

Dated, Bangalore, 19th February 1889.

SIR,

I am directed to acknowledge the receipt of your Office letter No. 7036/513 dated 8th February 1889, forwarding returns of Agricultural Statistics of the State of Mysore for the year 1887-88.

2. I am to observe that the Return showing varieties of Tenure (I.E.3) has not been prepared in the modified form prescribed in this Office letter No. 1955/1977/360 of the 12th June 1888, and to request that you will be so good as to submit an amended return at your early convenience, if the information is available.

3. I am at the same time to enquire whether the prices quoted in the return showing prices of Produce (III.E.I.) are

given in conformity with the instructions of the Government of India, conveyed in Revenue and Agricultural Department Circular No. 107/16-7, of the 13th December 1888, a copy of which was communicated to you with my letter No. 96/360 dated 14th January 1889.—

I have the honor to be,

Sir,

Your most Obedient Servant,

Godwin.

Transmitting Sanction No 2468 31/7/89

Yrs his No 172 of 3d Instant, submitting Agricultural & Fiscal returns A. to E. for the year 1888-89.

In returning the statements referred to above, draws the Dy. Comr's attention to this Office cir. Order No 660-7/14 of 30th April last in which it was requested that the Agricultural returns might be sent in the forms hitherto in use & not in the revised forms since prescribed by the Govt of India & subsequently deferred until further communication on the subject. The statements (8) should be prepared afresh & submitted without the least delay.

2 In the return of prices of produce

the price of Jaggery should have been given instead of Sugar as per foot note attached to the form circulated with this Office No. 357/12 dt 17/9/85. It is ~~also~~ not clear whether the price given is for husked or unhusked rice. The price of husked rice only should be entered in the return.

No. 91

His lr 158 of 13th Instant, submitting the return of Varieties of tenure held direct from Govt.

As no details as to the nr of holders or shareholders, gross area in acres & revenue rate per acre average area, & average assessment have been separately given for minor Inams comprised in the 3 major heads or tenures, viz. Ryotwar, godi & Kayemgutta villages & Sarvamanyam villages, requests that the same may be furnished at an early date. It should be noted that the area against "Ryotwar" should tally with the extent shewn under col 10 of Form A. & the total extent shewn against godi, Kayemgutta & Sarvamanyam villages & minor Inams comprised in ~~those~~ the 3 major heads referred

to above, should, likewise, correspond with the area exhibited under col 4 of the said return (Form A.) The statement under reference is herewith returned.

2 The area of sugar cane cultivation as per Form B. is 761 acres, whereas in the Nagadiyat return 92 acres only have been entered. The cause of the difference should be explained.

General No. 2969
No. 92

Agricultural & Fiscal returns for the year 1888-89, received with his ltr No 105 of 1st June last.

With reference to the statement of Varieties of tenure, observes that the No of estates entered against "proprietary cultivators" is 443100 be more than that shewn in the last year's return by 400,953. This abnormal increase should be accounted for The No of villages gobi & Kayemgutti as also Saravanamyam villages has been respectively entered as 1984, ~~whilst the figures given in~~ instead of ~~the Abkaval return are~~ 4385. as shewn in ~~the~~ Agricultural returns ~~In future the total No as per~~ which latter ~~figures~~ Abkaval return should have been entered

" " area of minor inams.

comprised in Ryotwar villages of
3
of gode, Kayemgutta & Saruamanya
villages inclusive of minor inams,
should ~~have been made to~~ tally
with the extent exhibited in
col 4 of Form A. This should be
done hereafter. The No of holders or
shareholders of minor Inams should be reported
2 As the ~~shole~~ area entered under
col 8 of the Nagadiyat return has
been ~~inclus~~ shewn under col "Tank"
in the Irrigation statement, it should
be reported whether no garden lands
are irrigated by tanks in any part
of the District. The extent of
sugar cane cultivation has not
been included in the figure shewn
under col "Inis. food crops" in spite
of ~~instructions issued in this Office~~
circular order No $\frac{64-71}{3}$ dt 5/4/87.
The extent of wheat cultivation,
viz 819-30 acres, is the same as that
entered in Form B. It should be
stated whether wheat is not grown
on dry lands.

Explanatory memo of the discrepancies pointed out in the Chief Secretary's docket No. 2969/93 dated the 20th July 1889. regarding the Agricultural and Fiscal returns of the year 1888-89.

——oo——

Remark.	Explanation.
I. Statement of varieties of tenure. No. of estates entered against Proprietory cultivators being entered as 443100.	I. The correct figure is 44100. By the carelessness of the copyist the comma between 4&1- was changed into a '3'.
II. The No. of Jodi and Kayenguttu and Sarvamanyam villages having been entered as 194 & 4 respectively when the Ahaval returns shewed the Nos. as 43 & 15.	II. The figures in the Ahavalpet returns shew the Dakshina villages as well as the Asli villages. The Asli villages alone are ~~incorrect~~ ~~paying~~ therefore the figures 194 & 4 should be entered in both the returns.
III. The total area of Minor Inams should tally with the extent shewn in Column 4 of Form A.	III. Will be duly attended to hereafter as required.
IV. The No. of holders or shareholders of Minor Inams should be reported	IV. Will be reported. The figures were entered in accordance with the form

Chief Secretary's Docket
No. 2935/94 dated 19th ultimo calling for explanation with reference to the Returns "Crops cultivated and "Irrigation as to whether no cereal other than paddy is grown in the District by means of irrigation and requesting the submission of the marginally noted ~~Agricultural~~ Returns

1 Register of Transfers.
1. Varieties of Tenure
1. Agricultural Stock
1.

File.
11/11/91

13/8

B/51/91

In reply to the above, has the honor to state that paddy and wheat are the only cereals grown in the District by means of irrigation. The small extent of wet land in which wheat was cultivated is shewn in Column 9 of the Irrigation statement.

2 The green, black and Bengal grams are also cultivated in wet lands as a second crop during the year after paddy crop is reaped, but no part of the wet land is specially reserved solely for this purpose.

3 The Return of "Varieties of Tenure" was forwarded with this office No. $\frac{253}{229}$ dated 19th July 1889. The other 2 returns are herewith submitted

[illegible] for Deputy Commissioner

R.66-

(General Serial No. 31.)

1889

From

To The Deputy Comr.
Bangalore dist-

Dated 14 August

Despatched 15

Received

Enclosures No.

General No. 3614

No. 180

His No 2486 ultimo, submitting the statement of Varieties of tenure for the year 1888-89.

Observes that the No of Govt, goodi, Kayenguttu & Sarvamanyam villages as entered in the above, does not tally with the figure shewn in the Abawal return. The area exhibited against "Revenue free tenures" is more than the extent of Sarvamanya villages. Moreover, the total area shewn against the marginally noted heads does not correspond with the extent entered under col 4 of Form A.

The statement under reference is, therefore, herewith returned for correction & resubmission as early

1 Inam Inams comprises in Govt villages
2 goodi & Kayenguttu villages —
3 Inam Inams included in the above
4 Sarvamanyam villages —
5 Inam Inams included in the above.

as practicable.

Received

Enclosures No. 4

General No. 3652

No. 161

His No 240 of 31st ultimo, submitting Agricultural & Fiscal returns for the year 1888-89.

Observes that in the statement of prices of produce, the prices of Cotton, Iron &c have not been entered, but it is noted in the column of remarks that the prices of only such of the articles as are grown or manufactured in the District have been shewn as per instructions conveyed in the Govt of India Order No 107/16-7 of 13/12/88 circulated with this office No 737-44/210 of 7/3/89. As per orders contained in the said Resolution of the Govt of India, the import prices of the articles that are

tenure held direct from Govt has not been prepared in the modified form circulated with this office No 1863-70/43 of 23/6/88, to which the Dy. Comr's attention was also drawn in circular No 660-7/14 of 30th April last. In preparing the statement afresh, the details as to the No of estates, No of holders or shareholders, gross area in acres, average area of each estate, average assessment & revenue rate per acre should be separately shewn against each of the heads noted below.

1 proprietary cultivators (Ryotwar)
2 Inam Inams comprized in Ryotwar or Govt villages.
3 Jodi & Kayemgutta villages
4 Inam Inams comprized in do
5 Sarvamanyam villages
6 Inam Inams comprized in do

It is essential that the total extent to be shewn against Nos 2 to 6 should tally with the area entered under col 4 of Form A.

5 The statements (four) referred to above, are herewith returned for correction & resubmission at an early date, with the explanation called for. By Order

Under Secretary

not locally produced but are staples of local consumption, should have been given. The explanation called for in para 4 of this Office pro. No. 660-7/14 dy 30/4/87 in regard to the increase in the prod of Sugar (Gud) for the year 1887-88 as compared with that for the previous year has not been furnished. This should be done now.

2 The area exhibited under col "Other cereals & pulses" in the st of Irrigation is 87343 acres, whereas the extent entered under col "Rice" in Form B. is 92,213 acres. The area of non-food crops as per Form B. is 10346 acres but the extent shewn in the Irrigation statement is 13,346 acres. The cause of these differences should be stated.

3 Although the total area of the District less Feudatories viz 1648,643 has to be shewn under col 2 of Form I yet 943,870 acres only have been en The area exhibited under col 3 is 128230 acres instead of 833003 acres The amount shewn under col "Land revenue assessed on fully assessed ar is evidently incorrect inasmuch as the same is less than the sum ent under col 5 (Total land revenue). The Dy. Comr's attention is again drawn to the instructions issued in the or noted on the margin.

FROM

THE ASSISTANT TO THE RESIDENT IN MYSORE.

To

The Dewan of Mysore.

Dated Bangalore, 12th March 1890.

SIR,

The Government of India in the Foreign Department has acknowledged the receipt of the agricultural statistics of the Mysore state for the year 1888-89, and in reply has forwarded the accompanying memorandum of observations which it considers may be of use to the Durbar.

2. In sending you this memorandum I am to suggest that remarkable discrepancies and variations of the descriptions noticed might

* Submitted to this office with your No. 7899 Dt. the 513 17th January 1890

15-2-90

might with advantage be accompanied by explanations.

3. At the same time I am to express to you the satisfaction of the Government of India at the completeness of the returns which are in themselves evidence of the excellent organisation of the land records and of the care with which the revenue administration is conducted.

I have the honor to be
Sir
Your most obedient Servant

L. S. Newmarch
Assistant to the Resident.

Memorandum of observations on the returns of Agricultural Statistics of Ellypore for 1888/89.

Form A (Area cultivated or uncultivated.) An increase of 157,019 acres is observed in the total area of the State (Col: 2), being 17,539,426 acres against 17,382,407 acres in 1887-88.

2. The area under forests (Col: 13) shows an increase of 165119 acres, being 957,587 acres against 792,468 acres in 1887-88.

Form B (Crops cultivated) 3. The area under tobacco shows a decrease of 44,836 acres or 78 per cent, being 12,480 acres against 57,316 acres in the preceding year.

4 560 acres have been shown as under jute in the Bangalore District. It is doubtful whether jute (Corchorus Capsularis or C. Olitorius) is really grown in Ellypore. This question was raised in paragraph 2 of this Department's letter No. $\frac{135}{16-2}$ (Stat) dated

16th March 1889 and the entries under the article in the last year's return were transferred to Column "Other fibres".

5. The following variations in prices are noticeable — (Prices of produce)

Cotton manufactures	1888-89 Rs. a p	1887-88 Rs. a p
Mysore	17-12-5	7-4-4
Yarn		
Jeumas	37-10-4	26-10-8
Mysore	35-8-10	26-1-9
Shimoga	38-5-4	27-3-6

6. As jute is not grown in Mysore the Entry under this article should be omitted from the Statement.

7. The increase which has been considerable in — (Jute, Yarns, Gunnies) Exports in the number of Bales or Shares shipped (3)

1888-89	1991463
1887-88	1348405
Increase	643058

8. The average consumption of each estate (each) is entered as per acre tenures
